bendover babies drives me crazy  
when you're dancing cheek to cheek  
bendover babies one of the maybe's  
i've been watching, what a relief

and if you could see me living in an adult dream  
don't you ever leave me, remote control and tv-screen

bendover babies, lullaby ladies  
such an attraction, what a relief  
bendover babies drives me crazy  
when you're dancing to satisfy me

and if you could feel me living in an adult dream  
and if you deceive me my life would be so incomplete

bendover babies spread over pages  
i've got my x-rated social needs  
bendover babies might as well face it  
fatal attractions to give me vd  
i'm not abnormal, i've got my moral and a  
responsibility  
locked up in anger and frustration  
to wind up in ecstasy

and if you believe me living in an adult dream  
don't you ever leave me, remote control and tv-screen
