"Bigtime"

Welcome to the future, Welcome to the future..
Get into the new speed, Get into the enemy...
Mass communication (genemanipulation)
So what's the occupation? (what's your dedication?)
Welcome to the future, Straight into the future

Bigtime (Bigtime), We're all partners in crime
B, b, b, bigtime (Bigtime), We're all standing in line

Welcome to the future, Welcome to the future...
Talking about the old times, Scared about the new
times...
Does anybody know you? (will anybody need you?),
Can anybody please you? (does anybody have to?),
Just get in to the future, Straight into to the future

Bigtime, We're all partners in crime, B, b, b, Bigtime,
We're all standing in line,
Bigtime, We're all partners in crime, B, b, b, Bigtime,
We've all been left behind...

Bigtime, We're all partners in crime, B, b, b, Bigtime,
We're all standing in line,
Bigtime, We're all partners in crime, B, b, b, Bigtime,
We've all been left behind...
