"Broken imaginary time"

It's the end of a broken imaginary time...

It didn't stay long
Your famous superficial golden tan...

When It comes down to dust
You're such a lightweight after all

When it comes down to dust
You're such a lightweight after all
You're such a lightweight after all
You're such a nobody at all...

It's the end of a broken imaginary time...

It didn't last long
Your famous superficial golden tan...

When It comes down to dust
You're such a lightweight after all

When it comes down to dust
You're such a lightweight after all
You're such a lightweight after all
You're such a nobody at all...

(You're such a nobody at all...)
(Aoooo.....)
