

## Soundtrack Of Our Lives

### "Endless Song"

take a trip in an endless song  
speak the color and it won't take long  
diver down to a deeper sound  
yeah, take a trip to where you once belonged

to stay in tune is to stay in time  
and pretty soon you will be mine  
and everything will be just fine...

take a trip with the one you love  
on a ship to the sun above  
long time - no see for a long time gone  
so take a trip for an endless song

to stay in tune is to stay in time  
and pretty soon you will be mine  
and everything will be just fine  
yeah, everything will be just fine  
cause you'll never get out of here...
