will you let me out of here?  
will you let me out?  
will you let me fly out of here?  
can you let me out?  
will you open up this cage?  
will you let me fly?  
oh, it's been so long, please let me out of here...  
please, let me out

will you buy another one?  
buy another friend?  
will you buy another one?  
buy another friend?  
it's so lonely and i just can't stand talking to myself  
oh, it's been so long  
please, buy me another friend  
please, won't you buy me a friend...

if you ever let me out  
i will be like you  
and if you buy another friend  
i will feed you, too  
and if you ever let me fly  
i will fly with you  
oh, it's been so long  
please, let me out of here  
please, won't you let me fly out of here...  
please, let me fly out of here
