Self indulgent lo-fi soldiers trying to play my game
Self indulgent lo-fi soldiers going all the way
I've got nothing else to say, I'm laughing all about it
Time is on my side and I can tell when you've just had it

'Cause I feel like I'm gonna take off
Yes, I feel like I'm gonna take off
I feel like I'm gonna take off
So watcha gonna do? Watcha gonna do about that?

Self destructive hi-fi leaders trying to build a wall
Self destructive hi-fi leaders wants to have it all
Seen it all before and now it's happening again
Have to blow your cool back in heaven to your friends

'Cause I feel like I'm gonna take off
Yes, I feel like I'm gonna take off
I feel just like I'm gonna take off
So whatcha gonna do? Whatcha gonna do about that?

Who will be the target of all my future plans?
Who will be the target just by a circumstance?
Reaping what you sow, never had to learn the lesson
God is on my side and he wants your confession

'Cause I feel like I'm gonna take off
I feel just like I'm gonna take off
I feel like I'm gonna take off
Yes, I feel just like I'm gonna take off

Feel like I'm gonna take off
(I feel like I'm gonna take off)
Yes, I feel just like I'm gonna take off
(I feel like I'm gonna take off)
And now the time has come to take off
So watcha gonna do? Whatcha gonna do?
Whatcha gonna do? Whatcha gonna do about that?
