I'm ready to let go.

I feel so alone  
again  
I know that I need you  
To help me make it through the night  
and I pray  
That you believe in me  
You gave me my strength  
To face another day alone

I need you now  
my friend  
more than you know  
when will we meet again  
cause I can't let go  
of you

This world brings me down  
again  
I know that I need you  
To help me make it through the night  
and I pray  
that your the one for me  
You gave me my strength  
to face another day

and I know  
and I need you know  
my friend  
more than you know  
when will we meet again  
cause I can't let go  
no I can't let go
