This time I thought I'd listen and the story goes...  
I am the same without medicine  
I can't pretend it never ends

I'm fine, I'm fine  
These words are all I have to hide behind  
So get behind me, you have no right to say..  
I shut my mouth and walk away from the memory game  
So don't forget, don't forget I am the reason

Long lasting this obsession from sleepless may to  
denver cold  
Somewhere in-between, I threw myself away

Someday you'll understand that everything is A.O.K.

I shut my mouth and walk away from the memory game  
So don't forget, don't forget I am the reason  
It's funny when you say you're A.O.K.

I'm fine, I'm fine  
These words are all I have to hide behind  
So get behind me, you have no right to say..

I shut my mouth and walk away from the memory game  
So don't forget, don't forget I am the reason

Someday you'll understand that everything is A.O.K.
