# "Angels With Even Filthier Souls - Hawthorne Heights"

Visit "[Angels With Even Filthier Souls - Hawthorne Heights](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Just stay the night and we'll see that things can work out  
And this will last forever  
How long can we wait for things to change  
And this will last forever

Every day this I say turn to dust and fade away  
And this will last forever  
Every day this I say turn to dust and fade away  
And this will last forever

Still waiting for tomorrow just wait for today  
To close my eyes  
Waiting for tomorrow just wait for today  
To say goodbye

She never said she loved me  
She never said goodbye  
She never said she loved me  
She never said goodbye  
She never said she loved me  
She never said goodbye  
She never said she loved me  
She never said goodbye

Just stay the night and we'll see that things can work out  
And this will last forever  
How long can we wait for things to change  
And this will last forever

Every day this I say turn to dust and fade away  
And this will last forever  
Every day this I say turn to dust and fade away  
And this will last forever

Still waiting for tomorrow just wait for today  
To close my eyes  
Waiting for tomorrow just wait for today  
To say goodbye
