Verse 1:

I met her on a sunny Sunday afternoon  
She hit me with a smile warmer than the days of June  
By then I knew she had to be in some way a part of me  
She was as beautiful as a flower in bloom, flower in bloom

Chorus:

The heat of the sunshine could not compare  
To the heat of the passion in times we shared  
And then out of the blue the cold winds came  
She went away and I'll never be the same  
She went away with the summer days  
She went away with the summer days

Verse 2:

We were inseperable we would spend  
Everyday together night after the day would then  
The time would come for the sun to leave (sun to leave)  
That's the way things had to be (had to be)  
And when the sun was gone I looked around and so  
was she

Chorus:

The heat of the sunshine could not compare  
To the heat of the passion in times we shared  
And then out of the blue the cold winds came  
She went away and I'll never be the same  
She went away with the summer days  
She went away with the summer days

Summer days, oh, summer days  
She went away with the summer days

Bridge:

Though the summertime is through (the summertime is through)  
I can't stop thinking of you (thinking of you)  
I can't seem to get you off my mind  
All I know is I can't wait until next summertime

Chorus:

The heat of the sunshine could not compare (noooo)  
To the heat of the passion in times we shared  
And then out of the blue the cold winds came  
She went away and I'll never be the same  
She went away with the summer days  
She went away with the summer days  
The heat of the sunshine could not compare  
To the heat of the passion in times we shared  
And then out of the blue the cold winds came  
She went away and I'll never be the same  
She went away with the summer days  
She went away with the summer days
