Someone to (all my life)

Make your move (I wanna be your baby)

It will be a brighter day
It's easy to believe
You and I are destiny

My heart lights up
Whenever you come around
Wish you could feel the same
How long must we play this game

My affection needs connection, no exception
I can't understand this crazy attraction
The more you run away
The more I've got to have you baby
Let me have a chance
