Turning into something  
Drifting off to old ways  
Got to pull myself back in

Holding back the questions  
We're bruised with all rejection  
Gotta pull myself back in

[Chorus:]  
Suffer the breaks  
You know I still remember it  
It keeps burning away  
I know that you may take a while  
To come back around

Come back around  
I miss you around

Reaching out for someone  
Burning out for so long  
Got to pull myself back in  
There's no new religion  
And there's no real solution  
Gotta pull myself back in

[Chorus x2]

come back around  
come back around

Feel you're going under  
So keep on treading water  
Got to pull myself back in  
Feel no obligation  
But no more indecision  
Gotta pull myself back in

[Chorus x2]
