### "Dangerous Things"

Watch where you turn it might be today  
you lose your head then just throw it away  
The wolf's at the door, the bell starts to ring  
I cannot be sure it it's really him

CHORUS

(All you dangerous things)  
The writing's on the wall  
(All you dangerous things)  
And now there's no control  
(All you dangerous things)  
And I can hear you call  
(All you dangerous things)

The eye of the storm is looking at me  
This feeling is borne in my tapestry  
Just give me a chance and don't walk away  
It's all in my head what I have to say

CHORUS

I don't need it now, I don't need no fix  
I hate society playing the same old tricks  
'Cause life's a crown of thorns  
So give me what I need

Yeah don't, don't bring me down  
Don't bring me down

CHORUS
