"Even Angels Fall"

Visit "[Even Angels Fall](#)" on MotoLyrics.com

You found hope
You found faith

Found how fast she could take it away
Found true love, lost your heart
Now you dont know who you are
She made it easy made it free
Made you hurt till you couldn't see
Sometimes it stops some times it flows
Baby that is how love goes

You will fly,
you will crawl
God knows even angels fall
No such thing as you lost it all
God knows even angels fall

And its a secret that no one tells
One day its heaven one day its hell
Its no fairy tale take it from me
Thats the way its supposed to be

You will fly you will crawl
God knows even angels fall
No such thing as you lost it all
God knows even angels fall

You laugh you cry no one knows why
But ohh the thrill of it all
Your on the ride you might as well open your eyes

You will fly you will crawl
God knows even angels fall
No such thing as you lost it all
God knows even angels fall

Even angels fall
Even angels fall
