Verse 1

You've always been a tough girl
But you feel you're about to break.
You're feeling stuck and out of luck
Watching your dreams all slip away.
You've been working mornings in the kitchen
and nights at the corner store.

As your life flies by you wonder why
And you know that there's gotta be something more.

Chorus

Hold On
But don't hold too tight
let go its gonna be alright
Don't run away from what your heart is saying
Ohh Be strong
Face what you're afraid of
Come on
Show them what you're made of
I know its hard when your hope is gone
But you gotta keep holding on.

Verse 2

You hear a voice that's calling
And its telling you to make a change.
It's time to fly
And say goodbye
And move on to a better place
You know you gotta take the first step
To get where you wanna be

Just get on track and don't look back
Cause its the only way you're gonna be free.

Chorus

Middle 8

Hold On
Your gonna make it
Your gonna be stronger

Hold On
Hang in there baby
Just a little bit longer
Hold On
There your gonna be fine
Dont give up
Be strong
When the going gets tough
You gotta Hold On
Hold On

Chorus X 2

Yeahhhhh
Hold On
Hold On
Hold On
