Your eyes they send me to eternity
Your heart may cast me down to Hell
I'm down
But lately it's your love that's condemnation enough

Identify
Please identify if it's me you want standing by your side
Identify these tears of mine
Am I lonely or am I just alive

I let time decide who and what would stand its test of
love
Your hands were speaking, no
I felt the movement go
The ice was breaking
So I wonder why did I
Identify with you my life
To leave me empty and see if I'd survive

(Instrument Solo)

For every questioned hour, for every second devoured
You let me wonder you into a myth that I misidentify
Please identify if it's me you want standing by your side
Identify these tears of mine
Am I lonely or am I just alive
Am I lonely or am I just alive
