If My Sister's In Trouble
Performed By Lady Soul

Do you ever feel it
When people get unkind
You can hear it in their voices
They get poison on their minds

Though ignorance
Should never be excused
I'll do my best
To pick up their attitudes

I'm moving away again
But there's one thing
That will make me take a stand

If my sister's in trouble
I will always help her out
If my sister's in trouble
I will turn the world around
I will fight for her right
No matter where the trouble seems to lie
If my sister's in trouble so am I
If my sister's in trouble so am I
So am I

All across the land
Young people are walking blind
But if the heat comes down
I'll be standing by your side

For I am there for you
Like you are there for me
Nothing feels as good
As a sister's loyalty

I'm talking about family
What my sister means to me

If my sister's in trouble

I will always help her out
If my sister's in trouble
I will turn the world around
I will fight for her rights
No matter where the problem seems to lie
If my sister's in trouble so am I
If my sister's in trouble so am I
So am I

I'll be there for you
Just reach out your hands
And I'm gonna pull you through

I'm talking about family
And what my sister means to me

If my sister's in trouble
I will always help her out
If my sister's in trouble
I'm gonna turn the world around
I will fight for her rights
No matter where the problem seems to lie
If my sister's in trouble so am I

Sister
I'm talking about my sister
Sister
My sister, my sister
You're in trouble so am I
So am I, so am I

I will be there
If you're in trouble
Reach out your hands
Call on me sister
I will be there
If you're in trouble
Reach out your hands
Call on me sister
I will be there
If you're in trouble
