Funny how I'm nervous still  
I've always been the easy kill  
I guess I always will  
Could it be that everything goes around by chance?  
Or only one way that it was always meant to be?  
You kill me, you always know the perfect thing to say  
Hey hey, hey hey  
I know what I should do but I just can't walk away  
I can picture your face well  
From the bar in my hotel  
I wish I could meet you  
I'll pick up put down the phone  
Like your favorite Heath Mizer song goes  
It's just like being alone  
Oh God, please don't tell me this has been in vain  
I need answers for what all the waiting I've done these  
You kill me  
You've got some nerve  
But can't face your mistakes  
Hey hey, hey hey  
I know what I should do but I just can't turn away  
So go on, love  
Leave while there's still hope for escape  
Gotta take what you can these days  
There's so much ahead  
And so much regret  
I know what you want to say  
I know it but can't help but feel indifferently  
I loved you and I should have said it  
But tell me, just what has it ever meant?  
I can't help it baby, this is who I am  
Sorry but I can't just go turn off how I feel  
You kill me  
You build me up but just to watch me break  
Hey hey, hey hey  
I know what I should do but I just can't walk away
