I can't stand to see the morning come
While the evening rain's still falling
I can't stand to see the morning come
While the evening rain's still falling
I can't stand to see the morning come
While the evening rain's still falling
Like the day
Saw the same
All the problems
I follow
I run away
Saw the plane
The grey life
Tomorrow
But I can't stand to see the morning come
While the evening rain's still falling
But I can't stand to see the morning come
While the evening rain's still falling
I close my eyes
It doesn't work
I can hear tomorrow
I can't stand to see the morning come
While the evening rain's still falling
I can't stand to see the morning come
While the evening rain's still falling
I can't stand to see the morning come
While the evening rain's still falling
