Oh, oh, oh, oh, oh, oh, ooh, oh, oh, yeah, yeah, yeah,
yeah, yeah yeah,
I never knew, it could feel,
Just like a dream but so real,
I took a chance and found all the strength I needed,
I look around above you,
I live without raditude, ' go for the wind and I will 'cause
I believe that...

Everyone could be a star,
Don't you know within you are,
And it feels so good standin' up here

On top of the world,
I never wanna come down,
I could stay forever yeah,

On top of the world, 'cause it's everything I want now,
There is nothing better

Oh, oh, oh, oh, oh, oh, oh, oh
So when you dream, deep inside,
When ya never know 'till when you try,
So when you see It's your chance ya gotta take it, I
Look around every face,

Hear the croud scream my name, i'm gonna win,
Because I know i'm gonna make it everyone could be a
star,
Don't you know within you are,
And it feels so good standing up here

On top of the world, I never wanna come down,
I could stay forever yeah,

On top of the world, 'cause it's everthing I want now,
There is nothing better

On top of the world,
Since where will be the end,
Because you know I like it here,

On top of the world, do you like it, it's the air,
Always need ya right by me
Every star a big shine,
And everybody's got their own life,

I know I can be anything,
I want to be once I believe in me

(Oooohhh!)
Oh, oh, oh, oh, oh, oh, oh, oh, oh, oh, oh, oh,
Feels so good when I'm standing here!

On top of the world,
I never wanna come down,
I could stay forever yeah,

On top of the world, 'cause it's everything I want now,
There is nothing better,

On top of the world, since where will be the end,
Because you know I like it here,

On top of the world,
Do you like it, it's the air, always need ya right by me
And I'm on top of the world.
