Only Love

Performed by Selena

I see the distant lights ahead
Another hour or so
And I'll be back in bed
I guess I really thought
That I was gone for good
But you know I never could

I count the headlights passing by
With every one I find
Another reason why
You'll be sound asleep
And I'll look like a fool
How could I be so cruel?

Only love could make me turn around
And make these tears come tumbling down (tumbling
down)
Only love
Only love could make you stay with me
I doubt myself that you believe (you believe)
Only love

I wish that I could be that strong
See me as I am
And love me right or wrong
I guess I'm still afraid
To only say goodbye
So I keep it all inside

Only love could make me turn around
And make these tears come tumbling down (tumbling
down)
Only love
Only love could make you stay with me
I doubt myself that you believe (you believe)
Only love
Only love

So I try to run
But no matter what I do
I know it's true
I can't go on without you

Only love could make you stay with me
I doubt myself that you believe (you believe)
Only love
Only love could make me turn around
And make these tears come tumbling down (tumbling
down)
Only love

Only love could make you stay with me
I doubt myself that you believe (you believe)
Only love
Only love could make me turn around
And make these tears come tumbling down (tumbling
down)
Only love
