Ohhh

[Verse 1:]

See theres this girl that i know

And shes more (more than average shes a perfect ten)

Dont really know how to handle someone who (wants to  
put her on, make her number one)

Shes so used to that mentallity, got to hustle hard,  
running in the streets

Thats so crazy

Somebodys baby

Going through these things

But I've got love for you and i wanna show you girl

Ohhh

Your friends dont like me

For real though (baby girl)

They say i'm no good for you (ohh)

They're jealous cuz you finally found a real love

Who only wants the best for you

[Chorus:]

I'm tryin to take you out the hood

Show you something good

Make sure you're ok

Everything is great (everything is great)

You're a superstar

You deserve it all

More than just a ghetto queen (more than just a ghetto  
queen)

(I) Wanna put you in some diamonds

Take you to the islands

Show you everything

You aint never seen

Just let me take you out the hood babe

Let me take you out the hood baby (yeah yeah yeah)

Girl let me change your world for you babe

Take you out the hood

[Verse 2:]

Tell me did you wanna go somewhere (Somewhere you've seen on tv)  
Well girl i've got the means to take you anywhere
