Is it real?  
We're always the same  
We're almost done now  
I was caught in the rain  
Wasting my time on the ground

Waiting the call  
What would you say?  
Can you come over?  
I was caught in the rain  
Wasting my time on the ground

It was you  
Who could get me high  
With whatever you say  
You're telling me something real

What we do  
It doesn't matter now  
Whatever it takes  
For you to stay with me

Trading thoughts  
Crossing the rumor  
I saw you surrounded  
I was caught in the rain  
Wasting my time on the ground

Feeling small  
Without an escape  
I almost let you down  
I was caught in the rain  
Wasting my time on the ground

It was you  
Who could get me high  
With whatever you say  
You're telling me something real

What we do  
It doesn't matter now

Whatever it takes  
For you to stay with me

It was you  
Who could get me high  
With whatever you say  
Telling me something real

What we do  
It doesn't matter now  
When I was caught in the rain  
You made me feel

You made me feel  
Made me feel  
I was caught in the rain  
Wasting my time on the ground

Wasting my time on the ground  
I was caught in the rain  
Caught in the rain
