Saturday morning  
And who's gonna play with me?  
Six in the morning, baby  
I got a long, long day ahead of me

The parents are sleeping soundly  
The neighbors are dead as wood  
I'm getting up and coming over  
We gotta rock the neighborhood

Nothing's ever gonna happen 'round here  
If we don't make it happen  
Sleep away the day if you want to  
But I got something that I gotta do

It's Saturday morning  
And this ain't the place for me  
I'm giving you warning, baby  
We got a whole big, fat, world to see

Nothing's ever gonna happen 'round here  
If we don't make it happen  
Sleep away the day if you want to  
But I got something that I gotta do

It's Saturday morning  
And who's gonna play with me?  
Six in the morning, baby  
I got a long, long day ahead of me

Saturday morning  
Saturday morning
