You're a rhyme without reason  
And you know it so well  
Well, who's the king of the season  
Well, you never can tell  
Though it's so plain to see  
You think you like to be normal  
You think you're in control  
But the action you take only makes you small  
Just like the way it should be

Surround, sister, take care of me  
Surround, sister, take care of me

You're a book out of nowhere  
Being read all the time  
And the things that you give me  
Only shows that you're blind  
And when you know it's all over  
And you're goin' insane  
Oh I'm just there to remind you  
That I can't feel no pain  
Why don't you let it be

Surround, sister, take care of me  
Surround, sister, take care of me  
Surround, sister

Cause I'm not afraid to fall  
No, I'm not afraid to fall  
I'm not afraid at all

Doo doo doo doo doo doo .... at all ....  
Come on

Surround, sister, take care of me  
Surround, sister, take care of me  
Surround, sister  
Cause I'm not afraid to fall
