"Sky is falling"

[by Lifehouse]

I watch as the daylight crawls
Past the shadows hanging on the walls
It
Of yesterday getting in my way

I
I
The sky is falling and no one knows
We shouldn
Shouldn
The sky is falling and no one knows

You leave me hanging on
I need to catch my breath
I
Don
With myself and all of my fear

I
I
The sky is falling and no one knows
We shouldn
Shouldn
The sky is falling and no one knows
No one knows
No one knows

I
I
The sky is falling and no one knows
We shouldn
Shouldn
The sky is falling and no one knows
The sky is falling and no one knows
The sky is falling and no one knows
