I was slung-lo and
So gung-ho
For anything to get me to start
I had my rock
I had my roll
But I couldn't find my spark

A flip of the hi-fi
A glimpse of the good life
And the clouds began to fade
I'm turning this B-side
Around to a de-light
Blue skies are here to stay

"She was so down, look at her now
She's never been so high!
Everyone knows, give it some time
The clouds'll clear the sky!"

Light the radio
Til it explodes
I'm dancin' til I drop
One small step
First right then left
I'm never gonna stop

"She was so down, look at her now
She's dancin' til she drops!
Everyone knows, give it some time
You'll find what you have lost!"

It is my style to take awhile
To put the feeling down to page
I get around to making sound
When the fancy meets the phrase!

"She was so down, look at her now
She's never been so high!
Everyone knows, give it some time
The clouds'll clear the sky!"

I'm gonna burst
Right out of this world
And I won't do it alone
A kick to the heart
A lift for the charts
One listen and we'll be gone
And then who cares?
We're debonair
And we're dancin' our way back home

"She was so down, look at her now
She's never been so high!
Everyone knows, give it some time
The clouds'll clear the sky!"
