"Sold Me"

Here I stand before myself, I see some things out of
place

You tasted all my purity, now there's nothing left to
waste

If you aint get so in my way, its getting lost in my
delivery

If you aint get so in my way, im getting lost in your
periferies

CHORUS: And you sold me up the river, I dont want you
to be

in my way, And you made me start it over, I dont you to
be in

my way, You move me, and then soothe me, then ya
fuck me

I dont want you to be in my way, And you left me
wondering what in the hell,

What is wrong with me?

I never felt like I had felt, until the day you came on
down

I never felt like I was lost, until the day you come in
again

If you aint get so in my way, its getting lost in my
delivery

If you aint get so in my way, im getting lost in your
periferies
