"Somebody Help Me?"

I'm being haunted by a whisper
A chill comes over me
I've been trapped inside this moment
I'm not victim, I'm not a freak

Chorus:
Free me
before I slip away
Heal me
wake me from this day
Can somebody help me

I've seen the face of my affliction
of my reality
I'm being tortured by the future
of things that are to be
I'm being hunted by a vision
it's like the morning never comes
I feel the burden of confusion
always searching... on the run

Chorus:
Free me
before I slip away
Heal me
wake me from this day
Can somebody help me

Bridge:
Now I'm not a hero... no
but the weight of the world's on my soul
these imagines burn in my eyes
they're burning me up inside (repeat)
