Daddy you don't know the hald of it
See I've started something
Now I have to finish it
The curtains blows
Outside my bedroom window
This is my life and I got to go
I check to see if there's a light up in my stocking tight
Don't forget to leave the light on

I'll be home before you know
Don't be mad if you hear me on the radio
I feel good and I feel free
On the microphone

Somebody stop me
Keep my body rocking
'till late night
I'm warning you
Don't try to block me
You can't stop me
You're my time

Come my girl is asking for the score
What
Scream, scream out
Better meet them on the back door
Sky rocking
To where the speakers blow
Please help me
Rock steady grab the microphone
Now check the clock is reading ten to mid
I bet my Daddy's
Dreams. He sleep talkin' so loud again

I'll be home before you know
Don't be mad if you hear me on the radio
I feel good and I feel free
On the microphone

Somebody stop me
Keep my body rocking

'till late night
I'm warning you
Don't try to block me
You can't stop me
You're my time

Somebody stop me
Keep my body rocking
'till late night
I'm warning you
Don't try to block me
You can't stop me
You're my time

I'll leave the light on now
And I won't make a sound daddy
Gotta get my group on now
I'll be jumping around, yeah, yeah

I'll leave the light on now
And I won't make a sound daddy
Gotta get my group on now
I'll be jumping around, yeah, yeah

Oh no

Somebody stop me
Keep my body rocking
'till late night
I'm warning you
Don't try to block me
You can't stop me
You're my time

Somebody stop me
Keep my body rocking
'till late night
I'm warning you
Don't try to block me
You can't stop me
You're my time
