1 2 3 go
Broken yeah
you've been livin on the edge of a broken dream
Nothing yeah
thats the only thing youll take away from me
Im never gonna stop
aint never gonna drop
aint no different then it was before
so take some good advice
you'd better stop and think twice
before you take that first step out the door

if you wanna step up (step up)
your gonna get knocked down
if you wanna step up (step up)
your gonna get knocked down
you have your chance to walk away
live to see another day
if you wanna step up (step up)
your gonna get knocked down
your gonna get knocked down

sufferin yeah
thats the only thing here thats left for you
nothin yeah
thats the only thing your ever gonna fuckin do
Im never gonna stop
aint never gonna drop
aint no different then it was before
so take some good advice
you'd better stop and think twice
before you take that first step out the door

if you wanna step up (step up)
your gonna get knocked down
if you wanna step up (step up)
your gonna get knocked down
you have your chance to walk away
live to see another day
if you wanna step up (step up)
your gonna get knocked down

your gonna get knocked down

your gonna get knocked down

and now your closin mine
you watched me house your mind

if you wanna step up (step up)
your gonna get knocked down
if you wanna step up (step up)
your gonna get knocked down
you have your chance to walk away
live to see another day
if you wanna step up (step up)
your gonna get knocked down
your gonna get knocked down
your gonna get knocked down
your gonna get knocked down
your gonna get knocked down
your gonna get knocked down
