Well I'll wait til you listen
I won't say a word
To follow your instincts
Just never worked for me
You're silent but strong
Yeah, I'm playing that card
And you're noticing nothing again

Now I'm lying on the table with everything you said
Keeping in mind the way that it felt
When the most I could do was to just blame myself
The most I could do was to just blame myself

Well I know you know everything
I know you didn't mean it
I know you didn't mean it
I know you know (drop everything) everything
I know you didn't mean it (start it all over)
I know you didn't mean it (remember more than you'd
like to forget)

So, we're talking forever
And you almost feel better
But better's no excuse for tonight
You see, it's never bad enough
To just to leave or give up
But it's never good enough to feel right

Now I'm lying on the table
With everything you said
It will all catch up eventually
Well, it caught up and honestly
The weight of my decisions
Were impossible to hold

They were never yours
They were never yours

Well I know you know everything (drop everything)
I know you didn't mean it (start it all over)
I know you didn't mean it (remember more than you'd
like to forget)

Drop everything
Start it all over
Remember more than you'd like to forget
Drop everything
Start it all over
Remember more than you'd like to forget

Would you want to forget?
Would you want to forget?
Drop everything
Start it all over
Drop everything
Would you want to forget?
Drop everything
Start it all over
Start it all

Well I know you know everything
I know you didn't mean it
I know you didn't mean it
Well I know you know everything (drop everything)
I know you didn't mean it (start it all over)
I know you didn't mean it (remember more than you'd
like to forget)
I know you know
I know you know
I know you know (drop everything)
I know you know (start it all over, remember more than
you'd like to forget)
You know you know you know
