When the rain is blowing in your face
And the whole world is on your case
I could offer you a warm embrace
To make u feel my love

One night when the shadows and the stars appear
And theres noone there to dry your tears
I could hold u for a million years
To make you feel my love

Oh i know u havent made your mind up yet
But i will never do u wrong
I knew right from the moment that we met
No doubt in my mind we'd be wrong

Id go hungry id go black and blue
Id go crawling down the avenue
No theres nothing that i wudnt do
To make u feel my love

hmmm.....

Oh when the storms raging on the open sea
And on the highway of regret
The winds will change theyll blow wild and free
You ain't see nothing like me

I could make you happy make your dreams come tru
Though theres nuthin that i wudnt do
Ill go to the ends of the earth for you

To make you feel my love (4)
