Come with me I'll take you now  
To a place that you feel  
For no reason why  
Your heart has turn away from me  
And I will make you understand

Everything will become clear to you  
When you see things through anothers eyes  
Everything will become near to you  
Whatever's meant for you  
You will find

Come with me I'll take you there  
To a place where you'll see  
Everything you need to be the one you need to be  
And all of those things that you fear  
Will dissappear from you in time

Everything will become clear to you  
When you see things through anothers eyes  
Everything will become near to you  
Whatever's meant for you  
You will find
