[English Translation]

Without saying anything, I'm right by your side  
At anytime  
Gently tell me your sad thoughts  
Because I'm listening  
If my inability to express things well  
Troubles you  
Then close your eyes and gently entrust me

Because I'll embrace you  
Within the passing seasons, now  
There is one certain thing inside of my chest  
If it's to protect you  
Then I won't regret a thing  
Because I'll take any pain in your stead  
I'll always be by your side  
Because when I learn that  
I didn't realize your feelings  
I want to send you  
Everything that I can do in my power  
I match my pace with you all the time  
Because I have still an unchanging thought now  
So that the warmth of when we embraced  
Won't ever disappear  
I'll wipe away your spilling tears  
I'll always be by your side  
If it's to protect you  
Then I won't regret a thing  
Because I'll take any pain in your stead  
Always smiling by your side  
So that the warmth of when we embraced  
Won't ever disappear  
I'll wipe away your spilling tears  
I'll always be by your side
