Verse: Ten in the morning, she sleeps in her frozen room

Doesn't want her dream to end

Dreaming 'bout the past days

There is only one thing to do

Chorus: Everyday she wakes up

Thinking what if a dream was real

And now putting her make up

She regrets all the things that she said

Bridge: She doesn't know what to do (4 times)

Verse2: In this boring world, she can't find herself

Spinning around she can't hide away

She Doesn't know what's wrong, she doesn't know what's right

Wants to run away, but she's afraid to try

Chorus: Everyday she wakes up

Thinking what if a dream was real

And now putting her make up

She regrets all the things that she said

(Instrumental, Guitar Solo)

Chorus: Everyday she wakes up

Thinking what if a dream was real

And now putting her make up

She regrets all the things that she said

Bridge2: She doesn't know what to do (2 times)
