Those intrusions in your life
Foreteller of the days to come
Enslaved by an invisible wicked kind
Daemons of your innocence in furious fun
Slowly emerging unfolding
The vicious trap
Absorbing the life line consuming
The human kind
Cleansing of old memories
Of freedom and how it should be
Destruction of all things to come
Absorbing row pornography
Slowly emerging unfolding
The vicious trap

Absorbing the life line consuming
The human kind
Serpents rising
Ages of blindness
Torment inside lies
Heroes are hollow
Comply to poisonous authorities
Savages are conquering with hypnosis
Claim through fear and sweet deceit
Opposition made you bleed
Slowly emerging unfolding
The vicious trap
Absorbing the life line consuming
The human kind
