Follow my dress wind it's way down your street
You're looking sweet in that big back seat
Lend me a wish, show me something I've missed
While you were sleeping, I caught you dreaming

Singer, sing that song
Driver, drive along

Do you know what you did or was it just coincidence

Now you're waving goodbye and I can't make sense
Lend me a wish show me something I've missed
While you were sleeping, I caught you dreaming

Singer, sing that song
Driver, drive along
