Poor old Tom, living on the hill, says he wants to quit  
but I know he never  
will  
The bottle's his ticket to an early grave, nothing you  
can do, nothing you  
can say  
Except he's safe at home, baby stop crying, got to  
leave him alone  
You'll be safe at home, safe at home, mama won't you  
call me on the  
telephone  
Whatever happened to the friends that I had  
Got themselves in trouble when things were looking  
bad  
Meet me down by the river, light of the moon  
Everything you need's in my silver spoon  
You'll be safe at home, safe at home, baby stop crying,  
got to leave him  
alone  
You'll be safe at home, safe at home, mama won't you  
call me on the  
telephone  
Well I know what you need and it's driving me crazy  
She hasn't come home, everything looking lazy  
Come in a hurry, fall far behind, you can't love a  
woman, gonna tease your  
mind  
And you'll be safe at home, safe at home, baby stop  
crying, got to leave  
him alone  
You'll be safe at home, safe at home, mama won't you  
call me on the  
telephone  
You'll be safe at home, safe at home, baby stop crying,  
you'll be safe at  
home
