"The Heartbreaker"

You want to make up the rules as you go, you think he
plays too rough
But you could have all the luck in the world and man it
might not be enough
He's got a star on his shoulder, but you can see it's a
cheat
The heartbreaker, he's a hard one to beat
It makes you mad to see him win, but the girls keep
comin' around
He plays dirty and he plays for keeps, but he's got that
magic sound
A song and a suitcase and a rodeo smile, the
heartbreaker, just a picture
of style
Your lady loves him, she's waitin' in school, I guess
he's everything you
want to be
But then, how you gonna make him look like a fool, he's
got a vision you
can't even see
He's mister deliver, he never let's you down and now
the lifewrecker is
comin' to town
