"Dont Wanna See You Go"

Visit "[Dont Wanna See You Go](#)" on MotoLyrics.com

dont wanna see u go,
dont u walk out that door
please dont walk out that door

(MISTER D)

I know u hate to see me go
but u know i gotta roll
beleve my it kills me, to leave u alone
but it bings a smile to my face
to hear ur voice on the phone
dont worry girl i'll be back,
with things on the right track
me and u girl, now lets make this last
these hard times will pass, but girl u gotta be strong
when im on the road gone, ill be right back with u
when its all set and done, mister d still ur number 1

dont wanna see u go, wont u stay a little more
just a little bit more
dont wanna see u go, dont u walk out that door
please dont walk out the door

(DTTX)

Dont wanna walk out that door, but i got to go
and another plane to to catch, an other tor and a role
i know it hard on you, cuz im gone all the time,
im only home for a minute, then im back on the grind
i gotta love girl, u know for stickin with me,
i said thew thick and thin and emotionally,
but sumthings changed, and it strange, and just seems
someone sleeping in my bed, by the way u treating
im far from perfect, but i do my best
dont have to work or nuthin, dont you see that u
blessed
and i cant keep goin on, with all this trouble and pain
all this stress and strain, do i do it on vain?
IM GONE

dont wanna see u go, wont u stay a little more
just a little bit more
dont wanna see u go, dont u walk out that door

please dont walk out the door

(SLEEPY MALO)

I gave my heart and soul baby, now didnt i do it?
i gotta let ur love go, even though im used to it
10 times or more, yes i walked out the door
i started to think the more i leave, to me u see no more
so many times that i tried, baby thats no lie
so many nights that i cried, just to help me get by
u wanna be by my side, even till this day
u can beg and say stay, girl im gone, it's too late

(YOUNG WICKS)

Girl u dont want me to walk out that door
cant we conversate about this a little
dont u know your the one i will lay my life down for
but sometimes they say love is just like war
we gotta stand strong and make it through the storm
until theres no more rain i'll take a way your pain
we can wipe the sleigh clean, we can live the dream,
just you on my team, and no one ever come between
(come on)
