(Royston and Antony Langdon)

Can you feel anxiety, anxiety

Do you know that place to go

There changing soâ€¦

Oh, there changing soâ€¦

Take the first of each trough we've made

Go on ahead

And we choose but never know

You can't go wrong

No, â€¦go wrong

No, you can't go wrong

Chorus:

Somebody's calling your name again

Maybe they're trying to be friendly

Perhaps it will just be the same again

Or this time it's someone pretending

Then a man stands alone this time, alone this time

Calling everyone back

I've got no time

And I can't go back

No, I can't go back

No, I can't go back

Chorus (x2)

Can you feel, can you feel

Anxietyâ€¦

Getting friendly
