Baby, I'm sorry
But I done it again
I really didn't mean to hurt you
But I needed a friend
So if I'm not watching from the side
If I'm not trying to decide
If I'm not standing all alone
Then I'm dancing on my own
Always dancing on my own
Always right here for a reason
Always dancing on my own
'Till the music's over and we all go home
You left me with the big lights
You left me watching in awe
I really didn't mean to hurt you
But I had to have more
So if I'm not watching from the side
I'm not trying to decide
I'm not standing all alone
Then I'm dancing on my own
Always dancing on my own
Always right here for a reason
Always dancing on my own
'Till the music's over and we all go home
We all go home, well all go home,
Always dancing on my own
Always right here for a reason
Always dancing on my own
'Till the music's over and we all go home
We all go home, well all go home, we all go home
Dancing on my own
I'll be dancing on my own
I'll be dancing on my own
Dancing
I'll be dancing
I'll be dancing on my own
I'll be dancing on my own
Dancing
