(Antony Langdon)

She'll kick you in the head, she'll never let you go Well you told her the truth but she already knows She's got the new age mantra down to a T So I shut my mouth to listen to the voice in the fray

She tells me Well all is clear on the final frontier All is clear on the final frontier

Banality was turning and she's not so sure So she sold the new age wisdom to the boy next door She's got that mantra down to a T So I shut my mouth to listen to the voice in the fray

She tells me
All is clear on the final frontier
