( Royston Langdon)

Who came for the cadavers in the morgue  
A very strange mission to skin all the women  
He butchered the cadavers in the morgue

Let go your souls  
Let go your souls  
Let go your souls  
Let go your souls

With that look in his eyes in the park and the pies (?)  
Well he came for the cadavers in the morgue  
So listen appear me the eyes from the TV (?)  
He came for the cadavers in the morgue

Let go your souls  
Let go your souls  
Let go your souls  
Let go your souls

Now you're in a ponder, eating a pizza  
You're mad for the cadavers in the morgue
