(Antony Langdon)

Well I'm standing on the launch pad  
Looking at the stars.  
Waiting for the countdown to begin  
I'm not sure where I'm going  
I've no way of knowing  
But when the signal comes  
It's just 5, 4, 3, 2, 1  
â€¦ baby I'm a Spacehog

Now I see the moon  
We got here oh so soon  
The earth looks very different from up here  
I'm picking up strange signals  
I hope we'll be o.k.  
But then the signal comes  
It's just 5, 4, 3, 2, 1!  
â€¦.baby I'm a Spacehog
