(Royston Langdon)

In the song Starside, Royston mentions the TV detective series Starsky and Hutch, which all band members grew up watching.

Like when you fall from the sky
And see the world from the side
Love always gets in the way
Just like in Hutch and Starsky

I'd like to leave without a trace
Blow you all to outerspace
See ya later now I'm gone
So long I'll see you when I'm home!
Starside
Tell me when I'm home?
Starside
Tell me when I'm home?

See how we'll fall like a child
Watch them, collide
Love always gets in the way
Just like in Hutch and Starsky

I'd like to leave without a trace
Press record and then erase
See you later mum I'm gone
So long I'll see you when I'm home!
Starside
Tell me when I'm home?
Starside
Tell me when I'm home?
