Christmas is a season

To remember the good times

The good times that we share

Through the years

A time to care for each other

Because together we'll conquer our fears

Chorus

Well it's christmas for you and me

It's christmas for the world to see

It's christmas for us all to share

It's christmas everywhere

It's christmas for you and me

It's christmas for the world to see

It's christmas for us all to share

It's christmas everywhere
