It takes so long to say goodbye

Goodbye is a long, long time

Tonight my love the moonbeams shine

Upon your dream and mine

So take my kiss to sleep with you

This kiss of love divine

Oh it takes so long to say goodbye

Goodbye is a long, long time

(So take my kiss to sleep with you

This kiss of love divine)

Oh it takes so long to say goodbye

Goodbye is a long, long time

Goodbye is a long, long time
