Sick and tired of this world
There's no more air
Tripping over myself
Going nowhere
Waiting
Suffocating
No direction
I took a dive and

On the way down
I saw you
And you saved me from myself
And I won't forget the way you loved me
On the way down
I almost fell right through
But I held on to you

Been wondering why
It's only me
Have you always been inside
Waiting to breathe
It's alright
Sunlights on my face
Wake up and yet
I'm alive and

On the way down
I saw you
And you saved me from myself
And I won't forget the way you loved me
On the way down
I almost fell right through
But I held on to you

I was so afraid of going under

But now the weight of the world
Feels like nothing, no nothing
(down, down, down)
You're all I wanted
(down, down, down)
You're all I needed
(down, down, down)
You're all I wanted
You're all I needed

On the way down
I saw you
And you saved me from myself
And I won't forget the way you loved me
On the way down
I almost fell right through
Held on to you

(down, down, down)
Held on to you
(down, down, down)
On to you
(down, down, down)
To you
